## PERFORATED CABLE TRAY

We offer the most expensive range of perforated type cable trays, which are used for the installation of cables. These trays can accommodate large number of branch lines and have high load-bearing capacity. Perforated cable trays can be hung using a center rod support, C- hanger or two-trapeze configuration. They can also be mounted on wall using brackets. For further security, these cable trays are also available with covers. We can also customize the products depending upon the specific requirements.

### Specification :

**Material of Construction :** GI Sheet, MS Sheet, SS Sheet, 1.2mm, 1.6mm, 2mm, 2.5mm, 3mm  
(Depending on Size & Thick)

**Surface Finish :** Hot dip Galvanizing, Pre-Galvanizing, Painted, Powder Coated  
with 7 Tank Pre-Treatment

**Size :** Width-50mm to 1200mm | Height-50mm to 200mm | Thickness- 1mm to 3mm

**Test :** Thickness Test, Galvanizing Test & Powder Coat Test

## RACEWAY AND TRUNKING

We provide our clients a wide range of flooring raceways/trunking & duct that are fabricated using premium quality raw material. Flooring raceway include diverse dividers to separate the cables. Its covers are either screw type or welded type. These flooring raceways and trunking are primarily used to carry networking cables in IT and allied industries. Our range is highly acknowledged for its quality features such as resistance to corrosion, strength and durability. Owing to our expertise, we are capable to provide these in customised specifications to the clients.

### PRODUCT RANGE

- Perforated Cable Trays
- Ladder Type of Cable Trays
- CableTray Accessories
- Cable Tray Ducts or Trunking
- Cable Tray Covers
  
- Coupler Plates And Hardware
- GI Earthing Strips
- Copper Earthing Strips
- C Channels or Z Channels
- GI Junction Boxes
  
- S.S. Cable Trays
- F.R.P. Cable Trays
- GI Threaded Rods & Fasteners
- Bend Cable Trays
- Meter Boxes

## LADDER TYPE CABLE TRAYS

Cable trays provide a support system for managing cables in a building or other places. Cable tray installation provides instant approach to maintain and replacement of cables without any difficulty. They give excellent ventilation and enhance life of cables.

We offer high strength ladder type cable trays that are perfect for heavy-duty power distribution in industries. Our ladder cable trays are available in the following specifications.

Vertical Outer Bend

Ladder Type Tee

Ladder Type Cable Tray

Ladder Reducer

Welded Type / Bolted Type

### C CHANNEL

We involved in offering our clients a comprehensive range of Support 'C' Channel. It is used to give a path and to support the cable and is highly appreciated for its durability and long service life. They are manufactured by our team of experts using premium grade raw material that is sourced from known and verified vendors. These channels are available in different specifications to the clients.

### Z CHANNEL

We offer a wide variety of Z angle trays, which is made of fine quality metal and alloy. These products are corrosion resistant and have high tensile strength. These angles deliver flawless performance as these are fabricated in compliance to the latest standards. We stringently check all the products before dispatching to the clients' specified destinations. Our offered products are widely used in various industrial applications.

### GI JUNCTION BOX

We are involved in offering a wide range of Floor Junction Box G.I. & S.S. Plate. Our quality range of floor junction boxes are manufactured using high grades of raw material which ensures its corrosion resistance and high load bearing capacity. Junction boxes are widely used in flooring to attempt cable and other purposes. In order to meet the various requirements of our clients, we offer our range of floor junction boxes in various sizes with the assurance of delivery within the stipulated time frame.

### FRP CABLE TRAY

FRP Sections are manufactured from an advanced formulation of thermosetting polyester resin with fibre glass reinforcement, on state-of-the-art, electronically controlled pultrusion plants. FRP Cable Trays are fabricated using FRP (Pultruded) Sections using S.S. hardware.
